**NEW METHODOLOGY  
OF NON-CORNEAL  
TONOMETRY**

Uniqueness

Comfort

Quality

Dear Sir/Madam,

Please, accept our warm regards.

We are glad to inform you that once again we are going to participate in **Medica 2011** that will be held in **Düsseldorf, Germany from 16<sup>th</sup> to 19<sup>st</sup> of November, 2011**. Please, kindly note our **Stand No.A12 in Hall No.10**

Our company, Ryazan State Instrument-Making Enterprise, will present you **diaton tonometer** for IOP measuring through the eyelid which is known all over the world as the unique and reliable device and should be of special interest to you.

We cordially invite you to visit our stand during the forthcoming **Medica 2011** where the representatives of the Enterprise-Manufacturer will provide you with master-classes, full information, explain transpalpebral tonometry features, demonstrate the product and answer all the questions you have.

Also, our enterprise will present the **new model of diaton tonometer** that was designed to make IOP measurement more comfortable, easier and quicker. The new model will be available for sale in 2012.

Looking forward to see you at our **booth # 10 A12 in Düsseldorf, Germany.**

Best Wishes,

O.S. Liberman  
The Chief of the Marketing Department  
Ryazan State Instrument-Making Enterprise
